

MiningMinnesota has proudly represented nonferrous resource exploration and development projects since our creation in 1988 as a 501(c)6 trade association. **Our essential voice** is resoundingly heard at the Capitol and in our communities, building the link between our daily lives and resource development.

Learn how MiningMinnesota is **leading the conversation about mining** and how your membership supports the industry that builds and powers our lives.

## ADVOCATE

**Promote responsible mining** through advocacy efforts at State and Federal levels. In the halls of the State Capitol, MiningMinnesota engages with legislators and their staff to provide critical input for proposed legislation and regulations. On a federal level, we partner with National Mining Association (NMA), American Exploration and Mining Association (AEMA), and Women's Mining Coalition (WMC) on comment letters, congressional testimony, and engagement with lawmakers.

**Share our members' exploration/mining experiences and perspectives with decisionmakers.** We bring the stories of those with "boots on the ground" to folks who haven't had the privilege to create their own stories and who may not have first-hand knowledge of how regulations play out in real life.

## EDUCATE

**Provide science-based educational materials and presentations and support workshops** for teachers, including the Minnesota Earth Science Teachers Association and the Minnesota Minerals Education Workshop (MMEW). **Engage in conversations** with the public through panel discussions, speaking engagements, and participation in events and gatherings, including a presentation at the TEDx Silver Lake.

**Build knowledge-sharing relationships** with members of industries tied to resource development, supply chain management, manufacturing, and end uses to foster responsible economic development.

## COLLABORATE

**Amplify our message and build support** throughout our state and beyond with regional trade associations, community organizations, advocacy organizations, chambers of commerce, and economic development groups.

As a **strong advocate and ambassador for the industry**, MiningMinnesota supports the efforts of all who are seeking to build and strengthen our region and we provide fact sheets, legal briefs, news releases, and other up-to-date information that can be utilized by our collaborators.

# INDUSTRY LEADERS FOR RESPONSIBLE MINING

## BOARD MEMBERS

\* Board President

\*\* Board Vice President

## WHY MININGMINNESOTA?

*"Our Board consists of members who represent a variety of industries, yet the goals are the same and the teamwork has created tremendous value for the respective projects. We are all aligned in doing our part to see these mining programs progress."*

**Julian Collins**

Executive Commercial Officer  
Timberline Drilling

*"MiningMinnesota is a trusted, critical voice in advancing meaningful conversations about mining's central role in our ability to realize a cleaner, more electrified future. Their advocacy is indispensable to the Twin Metals Minnesota team."*

**Kathy Graul**

Director, Public Affairs and  
Communications  
Twin Metals Minnesota

*"Foth aligns with industry leaders that are committed to responsible mining, our communities, and carefully managing Minnesota's resources. MiningMinnesota's membership demonstrates that commitment."*

**Larry Kramka**

Market Leader  
The Foth Companies

# ONE UNITED VOICE

## CHAMPIONING A SHARED GOAL.

MiningMinnesota members make up a **diverse coalition** of resource exploration and development members, vendors, suppliers, contractors, equipment manufacturers, unions, and industry professionals collectively working towards a common goal - **creating and supporting opportunities for responsible development of natural resources.**

## SHAPE THE VOICE. BECOME A MEMBER.

### MEMBERSHIP OPPORTUNITIES

**Ambassador\***  
**\$100**

**Copper-Nickel**  
**\$500**

**Gold**  
**\$2,500**

**Platinum**  
**\$10,000**

#### EVENTS

Invitations for webinars, lunch & learns, tours, networking events, volunteer opportunities, and legislative meetings

#### COMMUNICATIONS

Bi-weekly The Scoop Newsletter, 2x/week curated Industry News

#### ADVERTISING

Logo and link featured on website and event materials
